

# Lusaka Solar Generator System

## Overview

---

What is Zambia's micro-generator scheme?

The Micro-Generator Scheme, with a capacity of 270MWp, integrates small-scale solar projects ranging from 100kW to 5MW into the national grid. Spread across Zambia's provinces, these projects will expand electricity access and reduce reliance on hydropower.

How long does it take to build a power plant in Zambia?

Construction will begin within two months, with commissioning expected within three to eight months. Additionally, Developer-Initiated IPPs, driven by private-sector innovation, will further diversify Zambia's electricity mix, strengthening the grid and ensuring reliable electricity supply.

What are Zambia's CSR initiatives aimed at reducing reliance on hydropower?

Spread across Zambia's provinces, these projects will expand electricity access and reduce reliance on hydropower. Meanwhile, Eng. Loongo has commended Maamba Energy Limited for undertaking impactful CSR initiatives aimed at improving the lives of the people.
