

Manufacture of solar automatic circulating water pumps

Overview

Can solar panels power a water pump?

solar panels to power the pump. SAMKING solar pumps are engineered to bring a transformative water supply to the most remote and arid regions, completely independent of any existing electrical grid or infrastructure. these robust systems provide a consistent and reliable source of water. your investment stands the time.

Can solar power be used as a submersible pump?

The solution is to use solar power as the submersible pump's power supply. Combining a photovoltaic system and a submersible pump provides a cost-effective, reliably operating and autonomous system for efficient irrigation in agriculture and livestock farming.

Why should you choose a solar water pump system?

solar water pump system is much less expensive than using a grid connection or generator. By using water storage, the system can reliably deliver water 24 hrs a day. SAMKING provide advanced, affordable solutions for residents. pool crystal clear without any electricity bills. Many countries offer tax incentives and government grants.

Why should you use A WILO-Actun Opti Submers-ible pump?

The solution here is once again a raw water intake from boreholes. In this context, the Wilo-Actun OPTI submers-ible pump guarantees optimum water supply in any weath-er thanks to its high motor and hydraulics efficiency as well as dynamic Maximum Power Point Tracking (MPPT).

Water supply for remote areas
Efficient water supply for agricultural purposes
Our solution for reliable drinking water pumping
Thanks to Solar-Connect, convenience and operational reliability lie in your hands
Many benefits, one solution: Wilo-Actun OPTI
Application
The right solution for any demand
Application
Special features/product advantages
Applications
DURING THE PURCHASE -> On-grid residential roof-tops
AFTER PURCHASING
Applications
Water demand is growing worldwide. Reliably supplying the precious resource in arid and remote regions not connected to the power grid is a challenge. Wilo provides a safe, cost-effective raw water intake even in challenging conditions - thanks to the new Wilo-Actun OPTI water supply solution driven by solar power. Wilo-Actun OPTI offers a sophisticated See more on cms.media.wilo.com
