

Manufacturers of battery cabinet management products

Overview

What is a battery management system?

Our advanced battery management systems are engineered to optimize the performance of electric applications, from passenger and commercial vehicles to off-road machinery and stationary systems. Our systems continuously monitor cell conditions, measure charge levels, and transmit critical data to vehicle or equipment systems.

Who is Marquardt battery management system?

With our extensive expertise, Marquardt is a trusted development and production partner for battery management systems and their subcomponents. Enhance your EV battery's performance with our High Voltage Battery Management System (HV BMS).

What is a high voltage battery management system (HV BMS)?

Enhance your EV battery's performance with our High Voltage Battery Management System (HV BMS). Serving as the brain of your battery system, it expertly manages energy and data, ensuring optimal safety, efficiency, and reliability.

What is a CMC battery?

Designed for high-voltage batteries, our CMC ensures superior safety, flexibility, and reliability by actively monitoring and controlling cells. Ideal for automotive, trucking, and stationary applications, it minimizes downtime and maintenance, ensuring optimal performance and protection. Explore the future of battery safety with our CMC.
