

Mexican energy storage solar

Overview

Will energy storage attract renewables investment in Mexico?

With Mexico's president-elect having announced an intent to attract renewables investment, energy storage was the subject of much discussion at the Intersolar Mexico trade show.

What is solar power Mexico?

Solar Power Mexico is the first exhibition and conference specialized in the energy and solar technology segment, a business with growth rates of over 25% and an expected investment of over USD \$100 billion in renewable energy by 2031. The event will feature a seminar programme and exhibition at Poliforum Leon, Guanajuato.

Will Mexico generate 54% of its electricity from renewables?

President-elect Claudia Sheinbaum Pardo has already announced a national energy plan focused on driving renewables investment, expanding electromobility, and modernizing ageing grid infrastructure with the aim of Mexico generating 54% of its electricity from renewables, up from 12.1% today.

How much energy will Mexico need to avoid grid distortion?

The rewards would be huge as it has been estimated Mexico will require 2.3 GW of new energy storage projects through 2034, to avoid grid distortion.
