

New Delhi 48v inverter BESS

Overview

What is India's largest battery-inverter power system?

Minister Sood called the project a “historic milestone” for both Delhi and India’s energy sector, setting a new benchmark in regulatory and technological progress. Developed with support from IndiGrid, GEAPP, and TERI, the system is described as South Asia’s largest standalone battery-inverter power setup.

What is Bess – battery energy storage system at kilokari?

Delhi marked a major leap in urban energy infrastructure with the inauguration of a 20-MW (40 MWh) Battery Energy Storage System (BESS) at Kilokari, deemed the “largest” utility-scale system in South Asia. The project, inaugurated by Delhi Power Minister Ashish Sood, is hailed as India’s first commercially approved utility-scale energy.

Which energy storage solutions provider has commissioned BSES Rajdhani kilokari substation?

AmpereHour Energy, a full-stack energy storage solutions provider, in consortium with Indigrid, has commissioned BSES Rajdhani Power Ltd’s (BRPL) 20 MW/40 MWh battery energy storage system (BESS) project at the BSES Rajdhani Kilokari Substation in Delhi.

Why should India invest in a Bess storage facility?

With a significant increase in renewable energy generation capacity, it is imperative that storage facilities are developed to help India and the world transition to clean energy. With an annual tariff nearly 55% lower than the previous benchmark, the project sets a new standard for BESS affordability in India.
