New Zealand customized home solar power generation and energy storage equipment

Overview

Who is solarking?

SolarKing is a leading New Zealand solar company, having designed and installed thousands of tailored solar solutions throughout New Zealand. Here are just a handful of our Home Solar projects. SolarKing are specialist renewable energy engineers. Contact us to discuss your Solar needs via the form below or call us on 0508 Solar NZ (0508 765 276).

What is a home solar power system?

Home Solar Power systems designed for your specific requirements. SolarKing specialise in custom engineered solar + battery solutions for residential requirements. Homes with significant power use, typically $500 – $800 monthly bills, can benefit from a combination of solar power production and battery storage.

Can a solar panel system be used in New Zealand?

A: Yes! New Zealand gets between 1,700 and 2,400 hours of sunlight per year — more than enough for a solar panel system for home use. With rising electricity prices and government support for solar energy buyback, many homeowners see a full return on their investment within 7–9 years.

Who is taspac energy?

Taspac Energy is NZ's premium supplier of Solar PV and Energy Storage Solutions. 100% Kiwi owned, Taspac was founded in 2014 with a very simple goal – to provide best-in-class renewable energy solutions to New Zealand solar installers and electricians, backed up with a high level of local sales, technical and warranty support.
