New energy storage in South Africa

Overview

Are large energy storage projects coming to South Africa?

It's great to see more large energy storage projects coming online in South Africa. Just 2 months ago, Eskom unveiled another large battery storage project. Eskom's Hex site is specifically designed to store 100MWh of energy, enough to power a town such as Mossel Bay or Howick for about five hours.

Will South Africa welcome a battery energy storage system?

In a landmark step toward energy resilience, South Africa is set to welcome one of the continent's largest battery energy storage systems (BESS).

What is the largest battery energy storage system in Africa?

Unveiled in 2023, thanks to \$195 million from the International Bank for Reconstruction and Development (IBRD) and \$220 million from AfDB, this flagship project represents the largest battery energy storage system (BESS) on the African continent.

Is South Africa getting a big Battery Boost?

Loading. South Africa to Get Massive 612MWh Battery Boost South Africa's Power Grid Just Got a Major Upgrade – Here's Why It Matters In a landmark step toward energy resilience, South Africa is set to welcome one of the continent's largest battery energy storage systems (BESS).

New energy storage in South Africa

Africa's Largest Battery Energy Storage Project Red Sands ...

Updated 1st July 2025 - The Red Sands Battery Energy Storage System (BESS), set to be Africa's largest of its kind, has officially reached commercial close. Developed by GlobeEq, ...
