

# New energy storage projects in the Middle East

## Overview

---

Will UAE deploy 300mw/300mwh of battery energy storage capacity?

The UAE should deploy 300MW/300MWh of battery energy storage system (BESS) capacity in the next three years, according to one of its main utilities EWEC. Sungrow has signed another battery storage supply deal with renewable energy and sustainable infrastructure developer Doral for projects in Israel.

How much is karmsolar's solar-plus-storage project in Egypt worth?

Solar energy company KarmSolar has secured US\$2.4 million in bank financing for a solar-plus-storage project in Egypt. Recent policy developments in the US and European Union represent a considerable uplift to prospects for global energy storage deployment.

Is wind energy a business opportunity in the Middle East?

While solar has become a popular avenue for companies in the Middle East due to its solar yield and reliability, wind energy is also becoming an opportunity for business growth. ACWA Power and Envision Energy are developing a 1.1 GW wind farm in Egypt's Suez Gulf region, which has the highest wind potential in the country.

Will Egypt's first large-scale solar project be a Bess project?

Egypt's Upper Qena region will soon encompass the country's first large-scale hybrid solar and BESS project.

## New energy storage projects in the Middle East
