

## New solar container battery project in Mumbai India

## Overview

---

Is Tata Power installing a 100MW battery energy storage system in Mumbai?

Loading. Tata Power, India's largest integrated power company, has secured approval from the Maharashtra Electricity Regulatory Commission (MERC) to install a 100MW Battery Energy Storage System (BESS) across Mumbai.

What is PSA Mumbai's New solar farm?

The solar farm, which will be expanded to 10MW by June 2024, will provide over 75% of PSA Mumbai's electricity requirements (based on 2023 consumption rates) with the remaining renewable power sourced from Maharashtra State Electricity Distribution Company Limited (MSEDCL) and other providers.

What is MSEDCL battery energy storage system?

To store the excess power, MSEDCL is going for a Battery Energy Storage System (BESS), for which it has also received approval from the Maharashtra Electricity Regulatory Commission (MERC). A small contract has been awarded to a private firm.

Will MSEDCL buy solar power?

This power will be bought by MSEDCL from the firm at a lower cost," said the sources. In a major push for renewable energy integration, the Maharashtra State Electricity Distribution Company Ltd (MSEDCL) is planning a Rs20,000 crore project to set up battery-based storage units for 16,000MW that will be generated through solar power.
