

IMK CONTAINERS

Nordic solar panel greenhouse custom manufacturer

Overview

Where is Nordic solar launching its first battery energy storage system?

Yesterday, Nordic Solar officially inaugurated its first battery energy storage system (BESS) park in Denmark. The facility, located in Borup in the Municipality of Hillerød, marks a great milestone in the company's strategy to integrate battery storage into its portfolio of solar energy projects across Europe.

Why should I join Nordic solar?

Joining Nordic Solar means building a career with exciting opportunities. You will find a space to grow, learn and engage in a collaborative environment. Battery Energy Storage Systems (BESS) are the perfect complement to solar energy, which is one of the most predictable and cost-efficient renewable energy sources available.

Why should you choose solar innovations ® for Your Greenhouse & Conservatory?

Unlike most greenhouse & conservatory manufacturers, Solar Innovations ® provides all the necessary fasteners, silicone, and flashings for your project. These services help customers reduce installation time and cost, providing a high quality final product.

What is a greenhouse?

A growing environment designed specifically for you. A greenhouse is an aluminum-framed structure, glazed with glass or polycarbonate, that is used to propagate and/or grow plants. Solar Innovations® designs and manufactures custom greenhouses to each customer's exacting specifications, no matter the size or purpose.
