

Number of 5G base stations in Solomon Islands

Overview

How many 3G/4G base stations are there in the Solomon Islands?

The project plans to construct 161 3G/4G wireless communication base stations on 35 major islands in the Solomon Islands' nine provinces. The construction, to last for three years, started on Aug. 28, 2023, with the first telecommunication tower launched on March 22 in Sali village. (Xinhua/Zhang Jianhua) By Zhang Jianhua, Zhang Na.

Is there a 3G coverage map for Solomon Islands?

Normally Traveltomtom compares the network coverage maps of all the mobile internet operators, but for Solomon Islands there is very little information available online. Our Telekom actually has a 3G/4G coverage map on their website. Bmobile only specifies it operates in 4 provinces.

How many mobile connections are there in the Solomon Islands?

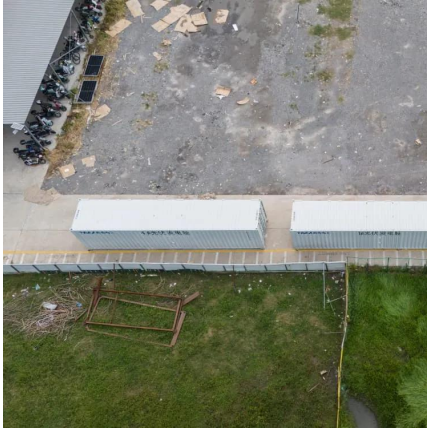

Data from GSMA Intelligence shows that there were 547 thousand cellular mobile connections in the Solomon Islands at the beginning of 2025. For perspective, many people make use of more than one mobile connection, so it's not unusual for mobile connection figures to significantly exceed figures for total population.

Are Solomon Islands mobile networks 'broadband'?

Meanwhile, GSMA Intelligence's data suggests that 81.8% of mobile connections in the Solomon Islands can now be considered "broadband", which means that they connect via 3G, 4G, or 5G mobile networks.
