

Outdoor battery box inverter

Overview

What are eco-ESS external battery & inverter enclosures?

Eco-ESS External Battery & Inverter Enclosures are designed to provide robust and secure housing for battery storage solutions outdoors. These enclosures are equipped with thermostatically controlled heating and cooling systems, ensuring your batteries remain within optimal temperature ranges, regardless of external weather conditions.

What is a battery enclosure?

These enclosures are equipped with thermostatically controlled heating and cooling systems, ensuring your batteries remain within optimal temperature ranges, regardless of external weather conditions. Our enclosures complement our Semi-Solid State Batteries and Solinteg Inverters.

Do Eco-ESS enclosures work with semi-solid state batteries & solinteg inverters?

Eco-ESS enclosures work perfectly with our Semi-Solid State Batteries and Solinteg Inverters. By providing a secure and stable environment, they help your energy storage and inverter solutions perform seamlessly, whether you're upgrading an existing system or building a new one from the ground up.

What is a fireproof battery enclosure?

Our Fireproof Battery Enclosures are engineered to provide exceptional fire resistance and secure containment for energy storage systems. Built from heat-resistant materials and designed to meet PAS 63100 standards, these enclosures minimise fire risk and thermal runaway spread, ensuring your batteries remain safe even under extreme conditions.
