

# Portable Mobile Tool Batteries

## Overview

---

What is a tool battery?

Tool batteries provide power to cordless tools. They are used to equip bare tools with a battery, change to a different battery series, or replace batteries that are damaged or no longer hold a charge. Tool batteries can be used with tools of the same brand, battery series, and voltage. Voltage describes the level of power the battery provides.

What are cordless tool battery packs?

Cordless tool battery packs are an essential part of any DIY enthusiast or professional tradesperson's toolkit. These battery packs provide the power needed to run cordless power tools such as drills, saws, and sanders, making them a convenient and portable option for those who need to work in different locations.

What is the best battery pack for power tools?

If you are looking for a reliable and powerful battery pack for your power tools, the Milwaukee M18 REDLITHIUM 8.0 Ah Battery Pack is a great option. This Lithium-Ion battery pack has a high capacity of 8.0 Ah, which means you can work for long hours without worrying about running out of power.

Can a battery pack work with a power tool?

Most power tool manufacturers offer a range of battery packs that are designed to work with their tools. It is best to check the compatibility of the battery pack with your tool before making a purchase, as using an incompatible battery pack can damage your tool and potentially cause injury.
