

Power storage systems factory in Turkey

Overview

What is the energy storage system?

Pomega Energy Storage Systems (PESS), using the world-proven prismatic lithium ferrous phosphate technology, are systems that store the energy produced at any time and with any energy source and enable it to be reused at the desired place and time.

Why is Türkiye a key player in energy storage?

As global investments in energy storage systems continue to grow, Türkiye has positioned itself as a key player, with two cell production facilities and nearly 100 lithium-ion battery production factories of various scales actively operating across the country.

Where is kontrolmatik energy storage system made?

Kontrolmatik manufactures its energy storage systems on a turnkey basis in its factory in Ankara. It is planned that the energy storage system solutions will be offered by Pomega Enerji Depolama Teknolojileri A.Ş., a 100% subsidiary of Kontrolmatik after 2022. What is the Energy Storage System?

.

Will Türkiye's battery and storage power plants be approved next year?

However, Usta noted that despite draft regulations, the legal framework for battery and storage power plants is still evolving. The first approvals are expected next year. Türkiye's battery imports remained steady at around \$1.1 billion, similar to last year.
