

IMK CONTAINERS

Price Inquiry for Expandable Solar-Powered Containers for Wastewater Treatment Plants

Overview

What is a Biocell water containerised wastewater treatment plant?

Biocell Water containerised wastewater treatment plants offer a fast and effective above ground portable wastewater treatment system solution for any site, without the need for any existing infrastructure. Containerized mobile treatment systems are ready to use immediately on delivery and cater from 60 persons to 20,000 persons capacity.

What is a containerised portable sewage treatment plant?

A containerised portable sewage treatment plant gives clients the option to relocate it onsite or easily transport it to new sites as necessary. In addition to that, the systems are modular so that they can work together in a variety of combinations effectively dealing with variable wastewater volumes to achieve any effluent quality.

What is a containerized wastewater treatment plant?

JNE Environmental's fully portable containerized wastewater treatment plants are capable of operation in remote locations. They are the perfect solution, with a proven record of success for treating wastewater that is created "off the beaten path".

How big is a portable water treatment plant?

The portable water treatment plants include our own line of wastewater treatment chemicals, Programmable Logic Controllers (PLC), and on-site service (if required). 8 ft. wide x 9.5 ft height by 40 ft. long (standard intermodal container). 17,500 lbs. per container. 1 to 50 gallons per minute. Custom configurations up to 200 gpm.*
