

# Replacing a breaker for sale in Melbourne

## Overview

---

Should I replace or install my circuit breaker in Melbourne?

A regularly tripping circuit breaker is a nuisance for anyone. If you decide whether to replace or install your circuit breaker in Melbourne, let our team at Precision Electrical & Plumbing assist you. You can reach us by dialling our hotline (03) 9511 1336. You can also book non-urgent appointments online through our website.

Where can I get a replacement breaker?

To get a replacement Bryant Type BRD BR 15-15 CU-AL SWD circuit breaker, find an Electrical Supplier in your area. If you are in a remote location and the nearest supplier is more than an hour away, consider getting a replacement through a local Electrician. Note that Bryant is now replaced with Cutler Hammer products, so a Cutler Hammer/Eaton reseller would be more than happy to help you.

What happens if a circuit breaker Burns?

A burning circuit breaker will be very hot, and touching it with bare hands could burn. Instead, you should switch off the entire system, call us, and leave the problem in our safe hands. Precision Electrical and Plumbing has a team of expert Melbourne electricians who can repair, install and fix old and new circuit breakers.

Why is my electrical circuit breaker blinking?

So, call us immediately if you have noticed a blinking light in the house or felt heat coming from the circuit breaker. Also, melted wiring, damaged safety switch, scorch marks, and a burning odour indicate that the electrical circuit breaker is not working well.
