

IMK CONTAINERS

Sales of Japanese small solar container outdoor power

Overview

How much is solar energy worth in Japan?

The solar energy sector of Japan is valued at an estimated range between \$20 to \$30 billion. In fiscal year 2023, the purchased value of electricity generated from solar energy in Japan was approximately \$20 billion, while this market is expected to grow with a CAGR of over 9.2% from 2024 to 2029. For comparison::

How big is Japan's solar power?

According to recent reports, Japan's solar power capacity surpassed 70 gigawatts (GW) by early 2024, making it a leading player in the global solar energy landscape. The solar energy sector of Japan is valued at an estimated range between \$20 to \$30 billion.

Who is shaping Japan's photovoltaic industry in 2025?

This list ranks the top 10 players shaping Japan's photovoltaic industry in 2025, evaluated based on market share, technological innovation, project scale, and influence within the Japanese market. 1. Grace Solar Topping our list is Grace Solar, a global leader in smart solar mounting solutions.

Who owns a solar power plant in Japan?

As the Japanese subsidiary of the global IPP Sky Solar, this company develops, owns, and operates utility-scale solar power plants. Their significant projects, like the 1.977MW plant in Kagoshima, contribute substantially to Japan's green energy supply.
