

# Shopping mall uses 20kW solar-powered container for promotional purposes

## Overview

---

### Why do shopping malls need solar energy?

Solar energy for shopping malls has abundant benefits for both the shopping mall and the local community. Occupying large spaces around the city, shopping malls consume enormous amounts of electricity, going off grid and installing solar energy solutions is not only a benefit during the current energy crisis but also long term.

### Why do South Africa's shopping malls use solar panels?

In South Africa, where much of the power produced is from fossil fuels, installing solar panels and going green promoted an eco-friendly business. Solar panels guarantee free electricity for up to 25 years if well maintained. By transitioning to solar energy, shopping malls play a pivotal role in reducing the city's carbon footprint.

### Why do you need a solar container unit?

Our solar containers ensure fast deployment, scalability, customization, cost savings, reliability, and sustainability for efficient energy anywhere. With our pre-configured solar container unit, you can get going quickly, and the folding solar panels for containers can be deployed in less than three hours.

### Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.
