

Single phase breaker factory in London

Overview

Who manufactures single phase transformers?

As your trusted experts, we specialise in the design and manufacture of single phase transformers. R Baker (Electrical) Ltd is the leading single phase transformer manufacturer in the UK. We manufacture custom made transformers from 500VA up to 250kVA. Our transformer technicians provide a range of design and manufacturing services.

Where can I find a single-phase circuit breaker?

Find your single-phase circuit breaker easily amongst the 26 products from the leading brands (Allen Bradley, ABB, Crouzet, .) on DirectIndustry, the industry specialist for your professional purchases.

What is the standard lead time for a single phase transformer?

Our single phase transformer range is available from 500VA to 250kVA, up to 3.3kV. Our team are here to help, regardless of brand or application if advice is needed when determining the rating of a transformer. Our standard lead time for single phase transformers is 2-3 weeks.

Do you supply ATEX certified single phase transformers?

The enclosures we house our standard single phase transformers in are IP23 but we can supply up to IP66 if required. We can also supply ATEX certified enclosures if required. R Baker (Electrical) Ltd is a transformer manufacturer and is one of the leading single phase transformer manufacturers in the UK.
