

# Solar container lithium battery 10 battery pack

## Overview

---

What is LZY solar storage?

LZY offers large, compact, transportable, and rapidly deployable solar storage containers for reliable energy anywhere.

What is the capacity of a CATL battery?

CATL serves global automotive OEMs. It is the global volume leader among Tier 1 lithium battery suppliers with plant capacity of 77 GWh (year-end 2019 data). Range of MWh: we offer 20, 30 and 40-foot container sizes to provide an energy capacity range of 1.0 – 2.9 MWh per container to meet all levels of energy storage demands.

Why should you choose a solar storage container?

Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy. Lower energy/maintenance costs ensure operational savings.

What is a lithium battery?

Lithium batteries are CATL brand, whose LFP chemistry packs 1 MWh of energy into a battery volume of 2.88 m<sup>3</sup> weighing 5,960 kg. Our design incorporates safety protection mechanisms to endure extreme environments and rugged deployments. Our system will operate reliably in varying locations from North America to sub-Saharan Africa.
