

IMK CONTAINERS

Solar container outdoor power produced in Johannesburg South Africa

Overview

What are solarepc containers?

The containers are fully integrated plug-and-play off-grid systems with many advantages. SolarEPC container solutions offer the quick installation of a modular, off-grid, solar power system. These mobile systems are ideally suited for remote locations, rural electrification and temporary installations.

What is solar EPC's scalable lithium-ion containerized energy storage system?

Solar EPC's scalable Lithium-Ion Containerized energy storage system ideal for off-grid and renewable energy storage provides invaluable flexibility.

What are VAC solar containerised solutions?

The VAC Solar containerised solutions include the required high voltage inverters, LiFePO4 batteries and MCCs (Motor Control Centres) complete with the AC and DC switch gear and protection i.e. circuit breakers, change over switches, fuse protection and SPDs (surge protection devices).

Who are VAC solar?

VAC Solar specialise in the design, development and construction of containerised solar PV plants. The deployment of containerised PV plants is a fast and convenient method of deploying a new system in remote locations where brick and mortar buildings are not available.
