

# Solar generator 2000 watts

## Overview

---

2000W is not enough to power an entire home. At most, it can support 2-3 appliances. A house needs thousands of watts to power everything at the same time. To power your entire home, get a permanen.

What can a 2000 watt solar generator power?

What Can A 2,000 Watt Solar Generator Power?

A 2000W solar generator can power most household appliances including the refrigerator, TV, and coffee maker as well as smaller electronics like lights, fans and devices. If it has a large battery capacity (5+kWh), it can run higher-wattage appliances like a portable AC or fridge.

Is 2000 watts enough to power a house?

2000W is not enough to power an entire home. At most, it can support 2-3 appliances. A house needs thousands of watts to power everything at the same time. To power your entire home, get a permanent solar power system or a gas generator.

Does a 2000W solar generator have a bigger battery?

Typically, 2000W solar generators have a matching 2000Wh battery. But there are exceptions. Some, like the Goal Zero Yeti 1500X have a smaller battery while others like the Yeti 3000X and 6000X have a larger battery. The bigger the battery, the longer you can power appliances and charge electronics.

How many watts can a solar generator produce?

For these, we recommend buying a solar generator or home solar kit that can output 6,000 watts peak & 3,000 watts continuous, with at least 10kWh of capacity. This makes 2000W solar generators a good pick for emergency home backup (fridge/lights/electronics), RVs, boats, and vans.
