

Solar grid-connected inverter serial number

Overview

How do I register an inverter with a different serial number?

If you have an inverter with one serial number for the lower Communication Unit and a different number for the upper Power Unit, register your product using the serial number shown on the type tag of the CU (lower enclosure). Log in to Sunny Portal. Select " Configuration > Device overview".

How to identify inverter serial number?

Inverter serial number can also be identified from the inverter LCD, on the right bottom of the LCD screen inverter serial number can be seen. Following is the image attached for the reference. Figure 2: Serial Number on the inverter LCD On the mobile application:.

What is a grid-connected solar microinverter system?

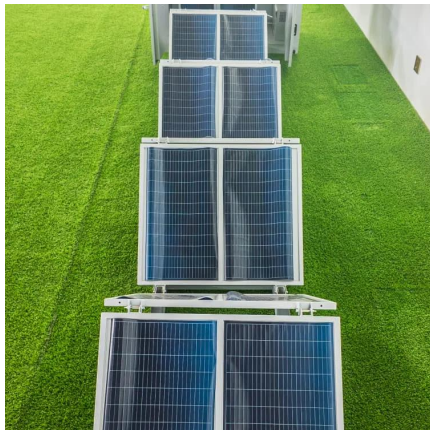

A high-level block diagram of a grid-connected solar microinverter system is shown in Figure 4. The term, "microinverter", refers to a solar PV system comprised of a single low-power inverter module for each PV panel.

How do I register a sunny inverter?

Log in to Sunny Portal. Select " Configuration > Device overview". All devices and their respective serial numbers and product groups (e.g. Sunny Mini Central 6000TL) are displayed in the device overview. In the main menu select " PV plant > Registration ". Select the name of the inverter you wish to obtain device information for.
