

Solar panel monocrystalline silicon folding panel 400w

Overview

What is a 400W solar panel?

Take solar power on the go. EcoFlow's 400W portable solar panel is a camping or RV must-have. The compact design saves valuable space for your other travel essentials. When you're ready to head off on your next adventure, simply collapse the panel down to store in your van or car. Capture more rays.

What are monocrystalline silicon solar panels?

Monocrystalline silicon sun-energy panels are more widely used in solar rooftop systems. These panels are commonly preferred for large-scale solar PV installations. Such solar panels are used in different sectors such as industrial, commercial, or residential.

How much solar power does a Solix PS400 have?

with orders over \$2500! 400W of Solar Power: Watch solar power performance in action with SOLIX PS400—even quickly charging Anker portable power stations. Up to 23% Conversion Efficiency: You'll notice 1.5X faster charging times thanks to monocrystalline solar cells and a powerful sunlight-trapping surface.

Can a 400W solar panel withstand a downpour?

Our 400W portable solar panel can carry on collecting energy even during a downpour. With a protective ETFE film and a high IP resistance level of 68, the solar cells can withstand environments from humid and wet to dry and dusty.
