

Solar panels installed on rooftops in Dakar

Overview

How can a photovoltaic system benefit Senegal?

An array of 92,000 photovoltaic panels has been installed and around 30MWp of renewable energy can now be utilised – securing a valuable and sustainable supply of low-cost electricity for Senegal, while providing an uplift to the local economy.

Why is senergy a good investment in Senegal?

Overall, the Senergy project is a significant contributor to Senegal's installed solar PV capacity and is providing clean and affordable power to more than 200,000 Senegalese people. A dedicated team is responsible for supervising Meridiam's four solar plants in Senegal. The plants therefore benefit from pooled resources and return of experience.

Where is senergy solar power plant located?

29.5 MWp solar power plants located 125 km northeast of Dakar. In operation since July 2017. The Senergy project consists of the design, construction, financing, operation and maintenance of a 29.5 MWp solar power plant.

Where is senergy PV located?

Senergy PV S.A. was also in charge of the construction of a 9-km transmission line on behalf of the client Senelec, the Senegalese electricity utility. The project is located in Santhiou Mekhe approximately 125 km northeast of Dakar.
