

# Solar power satellite factory in Bandung

## Overview

---

What is the largest vertically integrated solar PV industrial park in Indonesia?

(Photo Credit: SEG Solar) Texas, US-based solar PV manufacturer SEG Solar has started construction of what it says will be the largest vertically integrated solar PV industrial park in Indonesia with 5 GW of annual production capacity for silicon ingots, wafers, cells and modules.

Will SEG solar build a solar PV industrial park in Indonesia?

SEG Solar has announced the commencement of construction for its Indonesia solar PV industrial park. (Photo Credit: SEG Solar).

Where is n-type solar cells coming up in Indonesia?

The PV complex is coming up in Kawasan Industri Terpadu Batang, Central Java for which it signed a land utilization agreement in May 2024 (see US Company Advances On Indonesian PV Manufacturing Plans). Under phase I, the plan is to build 10 cutting-edge n-type solar cell production lines with an annual capacity of 5 GW.

Where is SEG solar based?

US photovoltaic (PV) module manufacturer SEG Solar has launched the first production line at its new factory in Indonesia's Central Java Province, thus moving ahead with the implementation of the 5-GW project's first phase. Image by: SEG Solar via LinkedIn.
