South African rooftop solar panels

Overview

What are the biggest solar rooftop installations in South Africa?

Two more of the top five biggest solar rooftop installations were also done by Solareff — the 4.8MWp system at Mall of Africa and the 2.9MWp system at Clearwater Mall. The latter was the first commercial rooftop solar plant to boast over 1MWp capacity in South Africa.

How will South Africa encourage new rooftop solar panels?

The South African Government is actively encouraging the uptake of new rooftop solar with targeted policy, including a new rebate scheme announced in February, which allows individuals who install new panels onto their homes to claim rebates equal to 25% of the cost of the panels.

How will the solar rooftop PV market grow in South Africa?

The growing government support and falling cost of rooftop solar panels purchase, installation, and maintenance are expected to support the uptake of solar PV and associated systems in South Africa, driving the solar rooftop PV market's growth in the country during the forecast period.

Where are solar panels used in South Africa?

South Africa has a huge mining industry; most mineral resources and mines are situated in the interior of the country, and the mining companies are another significant user of solar PV panels.
