

South Korea s telecommunications base station wind power construction bidding

Overview

What is South Korea's offshore wind power bidding plan?

The capacity of the proposed bidding round is in line with South Korea's Offshore Wind Power Competitive Bidding Roadmap, unveiled in August 2024, and its Public-led Offshore Wind Bidding Plan released in March 2025. In addition to offshore wind, the Asian nation will offer for tender up to 1 GW of solar photovoltaic (PV) capacity.

Will South Korea bid for offshore wind projects in 2025?

South Korea's Energy Agency has announced a competitive bidding for offshore wind projects with a capacity of 1.25 GW and 1 GW solar projects in the first half of 2025. The offshore wind tender for the first half of this year will focus on fixed-bottom projects.

How much will South Korea's offshore wind power auction cost?

The ceiling price has been set at KRW 176,565 (USD 128.6/EUR 113.3) per MWh, the same as in last year's auction. The capacity of the proposed bidding round is in line with South Korea's Offshore Wind Power Competitive Bidding Roadmap, unveiled in August 2024, and its Public-led Offshore Wind Bidding Plan released in March 2025.

Will South Korea expand its offshore wind power?

The MOTIE's roadmap for offshore wind power marks a significant step forward in South Korea's renewable energy transition. With more transparent bidding procedures, revised evaluation criteria, and extended deadlines, the country is setting the stage for a significant expansion of its offshore wind capacity.
