

South Sudan solar Energy Storage Project

Overview

Does South Sudan have a solar power project?

South Sudan has taken a significant step toward renewable energy with the launch of its first major solar power project. The Ezra Group, a leading business conglomerate, has successfully developed and financed a 20-megawatt (MW) solar power plant along with a 14-megawatt-hour (MWh) Battery Energy Storage System (BESS).

Why is South Sudan launching a 20 MW solar power facility?

The inauguration of the 20 MW solar power facility in Gondokoro signifies a monumental leap forward for South Sudan's renewable energy sector. With this project, South Sudan becomes one of the few nations in Africa to harness solar energy on such a scale, showcasing its potential for sustainable development.

What projects are underway in South Sudan?

Plans are already underway for other projects like the government-owned Nisitu Solar Plant which will complement existing structures and enhance overall grid reliability. Ezra Construction & Development Group is dedicated to expanding renewable energy solutions across South Sudan.

What is Ezra group doing in South Sudan?

Ezra Group unveils a 20 MW solar power project in South Sudan, featuring 14 MWh battery storage. Join the renewable energy revolution!
