

# **Southeast Asia Energy Storage Project Procurement**

## Overview

---

What is China Energy Construction - Terra photovoltaic storage project?

Recently, China Energy Construction Co., Ltd. has made another major breakthrough in the international new energy market, and successfully signed the largest EPC (design, procurement, construction) project of integrated photovoltaic and storage power station in Southeast Asia with Manila Electric Power Company - Terra photovoltaic storage project.

What is China energy construction in Southeast Asia?

As another masterpiece of China Energy Construction in Southeast Asia, the Terra PV storage project will make full use of the abundant local solar energy resources to provide a stable power supply of no less than 84 hours a week and 600 MW through the joint operation of photovoltaic power plants and energy storage systems.

Will Terra become the largest integrated photovoltaic power station in Southeast Asia?

This project marks a significant milestone as Terra is poised to become the largest integrated photovoltaic and energy storage power station in Southeast Asia.

Why did China energy construction sign the EPC project?

Figure: China Energy Construction signed the EPC project of Southeast Asia's largest integrated photovoltaic and storage power station (Source: International Solar Photovoltaic Network) China Energy Construction's strength and technological advantages in the field of new energy have been fully demonstrated.
