

Stockholm Energy Storage Container 1MWh Transaction

Overview

When will a battery energy storage system be built in Sweden?

Construction has begun on Sweden's largest Battery Energy Storage System (BESS) undertaken by Neoen, an Independent Power Producer and Nidec, a system integrator. The project has been projected to come online in early 2025. Neoen is headquartered in Paris.

How many large-scale energy storage systems are there in Sweden?

The initiative, led by Ingrid Capacity in collaboration with BW ESS, consists of 14 large-scale energy storage systems with a total capacity of 211 MW/211 MWh. This milestone investment represents a significant step toward Sweden's goal of achieving a carbon-neutral energy system.

What is a 1 MWh energy storage system?

1 MWh and construction scale of 1 MW/1 MWh. It includes a 1.04 MWh lithium iron phosphate battery pack carried by a 20-foot prefabricated container with dimensions of 6058 mm x 2438 mm x 2896 mm. Each energy storage unit has a capacity of 1044.48 kWh, and the actual capacity configuration of the system is 1000 kW/1044.48 kWh.

What is the largest battery energy storage system in Sweden?

Named Isbillen Power Reserve, the 1-hour duration Battery Energy Storage System project will be the largest in Sweden and the largest in the Nordics by megawatt (MW) power. The largest by megawatt-hours energy capacity in the Nordics will be a 2-hour project in Finland that Neoen recently started building.
