

# Tanzania energy storage power station installation

## Overview

---

How many villages in Tanzania will be able to access electricity?

electricity access for 37 villages in Tanzania along the transmission line. Project comprises of 1) Construction of 49.5 MW hydropower plant, 2) 132 kV transmission line, 54 km long for power evacuation to the national grid, and 3) Distribution network expansion including rural electrification and last-mile connections.

Can Tanzania achieve universal electricity access?

Tanzania has a tremendous opportunity to achieve universal electricity access by accelerating grid densification where power infrastructure exists and leveraging DRE solutions for extremely remote areas, particularly islands, where the grid is not feasible.

How much electricity is available in Tanzania?

Lastly, according to a National Bureau of Statistics (NBS) Study Report of 2019/2020, overall electricity access in Tanzania has increased from 14.2 percent in 2011 to 78.4 percent in 2020; and according to Tracking SDG7, electricity connectivity in Tanzania stood at 46 percent in 2022.

Does Tanzania have a power grid?

Tanzania continues to make significant progress in connecting citizens to electricity. Overall electricity access in mainland Tanzania has increased from 14 percent in 2011 to 78.4 percent in 2020, as the country has expanded the power grid to reach 100 percent coverage of all 12,318 villages.
