

# **Türkiye foreign trade portable energy storage emergency power supply**

## Overview

---

How big is Türkiye's energy storage capacity?

Türkiye's 35 GWh storage capacity accounts for grid-scale projects alone. Global energy storage investments have surpassed 150 GWh. Türkiye has already begun installations in Hungary, Bulgaria, and Spain, leveraging its geographic advantage close to Europe.

Where does Türkiye invest in energy storage?

Global energy storage investments have surpassed 150 GWh. Türkiye has already begun installations in Hungary, Bulgaria, and Spain, leveraging its geographic advantage close to Europe. Tokcan highlighted the importance of local expertise in manufacturing, system management, and maintenance to avoid dependency on foreign firms.

What is Türkiye's energy strategy?

The versatile structure of Türkiye's energy strategy and its energy import dependency brings international relations into prominence in this field. One of the main goals of Türkiye's energy strategy is to diversify routes and resources to strengthen its energy supply security.

Does Türkiye have a 74% import dependency?

On the other hand, Türkiye has a 74% import dependency to meet its energy demand. The versatile structure of Türkiye's energy strategy and its energy import dependency brings international relations into prominence in this field.
