V80 solar container outdoor power in Tampere Finland

Overview

How does renewables Finland track the development of solar power in Finland?

Renewables Finland currently maintains three up-to-date lists and statistics that track the development of solar power in Finland. The first is an annual statistic covering operational solar power projects, while the second lists projects under construction and third lists .

Where are solar power plants made?

Headquartered in Shanghai with 50,000+ production bases across Jiangsu, Zhejiang, and Guangzhou, the company employs 1,000+ professionals, including 20+ engineers driving energy storage technology. ISO/TUV/CE-certified units deliver rapid-deploy solar power for off-grid, emergency, and mobile applications, reducing emissions by 70% vs diesel.

How do I order a project list from renewables Finland?

The project list can be ordered in excel format from Renewables Finland as an individual order (€ 790 + VAT) or as annual subscription (€ 1490 + VAT inc. 2 list per year) The list is free of charge for Renewables Finland corporate members and can be found on the Extranet (you can get the Extranet login link from jasenpalvelut@suomenuusiutuvat.fi).
