

Where are the Honiara Communications solar Base Stations

Overview

Why are metal pylons being built in Honiara?

HONIARA, July 8 (Xinhua) -- Near a scattering of once-isolated villages just 30 km from Honiara, capital of the Solomon Islands, metal pylons are being erected to weave a modern network for the South Pacific country. The communication base stations are spotted through palm groves and sparsely populated grass huts, next to ancient rainforest.

How many 3G/4G base stations are there in the Solomon Islands?

The project plans to construct 161 3G/4G wireless communication base stations on 35 major islands in the Solomon Islands' nine provinces. The construction, to last for three years, started on Aug. 28, 2023, with the first telecommunication tower launched on March 22 in Sali village. (Xinhua/Zhang Jianhua) By Zhang Jianhua, Zhang Na.

Why is China launching a National Broadband Network in the Solomon Islands?

Chinese Ambassador to the Solomon Islands Cai Weiming said the national broadband network project in the Solomon Islands will facilitate the flow of information and friendship and provide a more balanced distribution of development opportunities, demonstrating the appealing prospects of Belt and Road cooperation.
