Which solar container battery is better in Hanoi

Overview

Did Marubeni launch a megawatt-scale battery storage demonstration project in Vietnam?

The project's official inauguration event held in December. Image: VinGroup. A green energy subsidiary of Japanese conglomerate Marubeni has brought online a megawatt-scale battery storage demonstration project in Vietnam.

How much solar power does Vietnam have?

Vietnam's Eighth National Power Development Plan, published in 2023, also acknowledges that the country's solar potential is an estimated 963GW of capacity, and the government has since made moves to provide offtake tariffs and better enable onsite self-consumption.

How much power will Vietnam have by 2030?

The plan also called for 300MW of battery storage deployment and 2,400MW of pumped hydro energy storage (PHES) by 2030. State-owned public power company Vietnam Electricity (VE), is participating in a 50MW/50MWh grid-scale BESS pilot project which marks a first step towards that BESS goal.
