

# **Wholesale of 50kW Solar Containers in Australia**

## Overview

---

How much does a 50kw Solar System cost in Australia?

For a more exact figure, contact our specialists for a free quote. For commercial 50kW solar systems in Australia you will be looking at starting prices of \$45,000 to \$50,000 after rebate, excluding GST. For higher quality components from top tier manufacturers with highly efficient inverters the prices will start from \$55,000.

Is a 50kw solar power system right for your business?

If you're running a large warehouse, an office complex, or something else entirely a 50KW solar power system is big enough to meet the demands of most medium-large commercial operations across Australia. We have access to the most advanced Tier 1 solar technology in the business, offering high conversion efficiency and minimal maintenance costs.

What is a 50kw Solar System?

Our 50KW solar system solution is designed for the needs of Australian business owners: efficient, weather resistant, and capable of meeting your power demands on a daily basis. Arise Solar is 100% Australian owned and operated — and one of the country's leading solar providers for large commercial operators.

Does a 50kw solar panel system come with a warranty?

Our 50KW solar panel system comes with a 25 year performance warranty, 10 year manufacturer's warranty, and 5 year warranty on workmanship (including installation). To find out if a 50KW solar panel system is right for your operation, give us a call on 1300 274 737 or get a quote now.
